**Have you been switching your baby's formula often? Before switching again please consider the following:**

Dr. Palmer at Clear Lake Pediatrics is looking for fussy babies to participate in a 1 month investigational formula research study.

## **Who is Eligible?**

- Full term, healthy newborns who are 7-42 days of age
- Babies who are being exclusively formula fed

## **Participation Includes:**

- Study visits at no cost to you
- Study formula provided at no cost
- Compensation for your time will be provided
